

Dear Sir/Madam,

It has come to my attention that the FCC has proposed changes in the way I listen to radio. I have been listening to K-LOVE (currently 90.9 FM, Laramie/Cheyenne WY) for over 5 years now. No other radio station is available to me that plays contemporary Christian music. It is wholesome, commercial-free, and it is not offensive to my very young children, like the songs and commercials aired on other radio stations. K-LOVE is national in scope and I appreciate that for perspective, for news and for concert information. Living in Laramie, WY where we are very isolated, it is important for me to feel "connected" to the rest of the world. I usually have to drive to Denver or Colorado Springs for Christian concerts, and the national/regional format of K-LOVE gives me the information I need in an isolated area such as Wyoming.

I petition you to please do NOT change the current FM translator system to LPFM. Thank you for giving me the opportunity to voice my concerns.  
Most Sincerely, Joe Rovani, Laramie, WY 307-742-6515 Rovani@uwyo.edu
